Ongoing Charges Figure[†] 0.07%

[†] The Ongoing Charges Figure (OCF) covers administration, audit, depository, legal, registration and regulatory expenses incurred in respect of the Funds. When you invest with any fund manager, you pay a number of charges, starting with the Annual Management Charge (AMC) which covers the fund manager's costs of managing the fund. The AMC plus ongoing running costs and other operational expenses make up the fund's total 'ongoing charges figure'.

Objectives and investment policy

- The Fund employs a passive management – or indexing – investment approach, through physical acquisition of securities, and seeks to track the performance of FTSE Germany All Cap Index (the "Index").
- The Index is a free float market capitalization weighted index composed of large, mid and small cap stocks of companies located in Germany and is derived from the broader FTSE Global Equity Index Series.
- The Fund attempts to 1. To the extent practicable, track performance of the Index by investing in all, or substantially all, constituent securities of the Index in the same proportion as the Index. 2. Remain fully invested except in extraordinary market, political or similar conditions.

Vanguard Germany All Cap UCITS ETF

Key investment risks

The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events. Movements in currency exchange rates can adversely affect the return of your investment.

Counterparty risk. The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.

Liquidity risk. Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.

Please also read the risk factors section in the prospectus and the Key Information Document, both of which are available on the Vanguard website.

Vanguard Germany All Cap UCITS ETF

(EUR) Distributing - An exchange-traded fund

Data as at 30 November 2025 unless otherwise stated.

Characteristics	Fund	Benchmark
Number of stocks	148	145
Median market cap	€58.5B	€58.5B

Glossary for ETF attributes

The ETF attributes section on the first page contains a number of metrics that professional investors use to value individual securities against a market or index average. These metrics can also be used to value and compare funds to the market by taking the average of all the securities held in the fund and comparing them to those of the fund’s benchmark index. We’ve provided a definition of the terms used for your convenience.

Earnings growth rate is a measure of growth in a company’s net income (what remains after subtracting all the costs from a company’s revenues) over a specific period (often one year). Earnings growth can apply to previous periods or estimated data for future periods.

Equity yield (dividend) is the dividend income earned by stocks, expressed as a percentage of the aggregate market value (or of net asset value, for a fund). Quoted historic yield is determined by dividing the gross distributions declared over the last 12 months by the average of the bid and ask unit prices, as at the date shown. The dividend yield stated on the factsheet applies to the underlying holdings of the ETF, and not the ETF itself.

Median market cap (capitalisation) looks at all companies in a mutual fund portfolio and calculates the mid point market capitalisation. Market capitalisation represents the aggregate value of a company’s stock.

Price book ratio compares a stock’s market value to its book value (the accounting value of a stock). It is calculated by dividing the current closing price of the stock by the latest quarter’s book value per share.

Price earnings ratio (P/E ratio) of a stock is the price paid for a share divided by the annual profit earned by the firm per share. A stock with a price of £10 a share, and earnings last year of £1 a share, would have a P/E ratio of 10.

Return on equity is a measure of a company’s profitability that reveals how much profit a company generates with the money shareholders have invested.

Investment risk information

The value of investments, and the income from them, may fall or rise and investors may get back less than they invested.

Past performance is not a reliable indicator of future results.

ETF shares can be bought or sold only through a broker. Investing in ETFs entails stockbroker commission and a bid- offer spread which should be considered fully before investing.

The Funds may use derivatives in order to reduce risk or cost and/or generate extra income or growth. The use of derivatives could increase or reduce exposure to underlying assets and result in greater fluctuations of the Fund's net asset value. A derivative is a financial contract whose value is based on the value of a financial asset (such as a share, bond, or currency) or a market index.

Some funds invest in securities which are denominated in different currencies. Movements in currency exchange rates can affect the return of investments.

For further information on risks please see the "Risk Factors" section of the prospectus on our website at <https://global.vanguard.com>.

Important information

This is a marketing communication.

Vanguard Investments Switzerland GmbH only gives information on products and services and does not give investment advice based on individual circumstances. If you have any questions related to your investment decision or the suitability or appropriateness for you of the product[s] described in this document, please contact your financial adviser.

For further information on the fund's investment policies and risks, please refer to the prospectus of the UCITS and to the KID before making any final investment decisions. The KID for this fund is available in local languages, alongside the prospectus, which is available in English only, via Vanguard's website <https://global.vanguard.com/>

The information contained herein is not to be regarded as an offer to buy or sell or the solicitation of any offer to buy or sell securities in any jurisdiction where such an offer or solicitation is against the law, or to anyone to whom it is unlawful to make such an offer or solicitation, or if the person making the offer or solicitation is not qualified to do so. The information in this document is general in nature and does not constitute legal, tax, or investment advice. Potential investors are urged to consult their professional advisers on the implications of making an investment in, holding or disposing of shares, and the receipt of distribution from any investment.

Potential investors will not benefit from the protection of the FinSA on assessing appropriateness and suitability.

Vanguard Funds plc has been approved for offer in Switzerland by the Swiss Financial Market Supervisory Authority (FINMA). The information provided herein does not constitute an offer of Vanguard Funds plc in Switzerland pursuant to FinSA and its implementing ordinance. This is solely an advertisement pursuant to FinSA and its implementing ordinance for Vanguard Funds plc. The Representative and the Paying Agent in Switzerland is BNP Paribas Securities Services, Paris, succursale de Zurich, Selnaustrasse 16, 8002 Zurich. Copies of the Articles of Incorporation, KID, Prospectus, Declaration of Trust, By-Laws, Annual Report and Semiannual Report for these funds can be obtained free of charge from the Swiss Representative or from Vanguard Investments Switzerland GmbH via our website <https://global.vanguard.com/>.

The Manager of Vanguard Funds plc is Vanguard Group (Ireland) Limited. Vanguard Investments Switzerland GmbH is a financial services provider, providing services in the form of purchase and sales according to Art. 3 (c)(1) FinSA. Vanguard Investments Switzerland GmbH will not perform any appropriateness or suitability assessment. Furthermore, Vanguard Investments Switzerland GmbH does not provide any services in the form of advice. Vanguard Funds plc has been authorised by the Central Bank of Ireland as a UCITS. Prospective investors are referred to the Funds' prospectus for further information. Prospective investors are also urged to consult their own professional advisors on the implications of making an investment in, and holding or disposing shares of the Funds and the receipt of distributions with respect to such shares under the law of the countries in which they are liable to taxation.

The Indicative Net Asset Value ("iNAV") for Vanguard's ETFs is published on Bloomberg or Reuters. Refer to the Portfolio Holdings Policy at <https://fund-docs.vanguard.com/portfolio-holdings-disclosure-policy.pdf>.

The Manager of the Ireland-domiciled funds may determine to terminate any arrangements made for marketing the shares in one or more jurisdictions in accordance with the UCITS Directive, as may be amended from time to time.

For investors in Ireland-domiciled funds, a summary of investor rights can be obtained via <https://www.ie.vanguard/content/dam/intl/europe/documents/en/vanguard-investors-rights-summary-irish-funds-jan22.pdf> and is available in English, German, French, Spanish, Dutch and Italian.
