**Ongoing Charges Figure** 0.29%

†The Ongoing Charges Figure (OCF) covers administration, audit, depository, legal, registration and regulatory expenses incurred in respect of the Funds.

**Objectives and investment policy**

- The Fund employs a passive management – or indexing – investment approach and seeks to provide long-term capital growth by tracking the performance of the MSCI World Small Cap Index (the “Index”).
- The Index is comprised of small-sized company stocks in developed markets.
- The Fund attempts to: 1. Track the performance of the Index by investing in all constituent securities of the Index in the same proportion as the Index. Where not practicable to fully replicate, the Fund will use a sampling process. 2. Remain fully invested except in extraordinary market, political or similar conditions.

Key investment risks

The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events. Movements in currency exchange rates can adversely affect the return of your investment.

Liquidity risk. Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.

Counterparty risk. The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.

Indexing risk. The Fund is not expected to track the performance of the Index at all times with perfect accuracy. The Fund is, however, expected to provide investment results that, before expenses, generally correspond to the price and yield performance of the Index.

Please also read the risk factors section in the prospectus and the Key Investor Information Document, both of which are available on the Vanguard website.

This document is for professional investors only (as defined under the MiFID II Directive) investing for their own account (including management companies (fund of funds) and professional clients investing on behalf of their discretionary clients). Not to be distributed to the public.
Glossary for fund characteristics

The fund characteristics section above contains a number of metrics that professional investors use to value individual stocks against a market or index average. These metrics can also be used to value and compare funds to the market by taking the average of all the stocks held in the fund and comparing them to those of the fund’s benchmark index. We’ve provided a definition of the terms used for your convenience.

**Median market cap (capitalisation)** looks at all companies in a mutual fund portfolio and calculates the mid point market capitalisation. Market capitalisation represents the aggregate value of a company’s stock.

**Price earnings ratio (P/E ratio)** of a stock is the price paid for a share divided by the annual profit earned by the firm per share. A stock with a price of £10 a share, and earnings last year of £1 a share, would have a P/E ratio of 10.

**Price/book ratio** compares a stock’s market value to its book value (the accounting value of a stock). It is calculated by dividing the current closing price of the stock by the latest quarter’s book value per share.

**Return on equity** is a measure of a company’s profitability that reveals how much profit a company generates with the money shareholders have invested.

**Earnings growth rate** is a measure of growth in a company’s net income (what remains after subtracting all the costs from a company’s revenues) over a specific period (often one year). Earnings growth can apply to previous periods or estimated data for future periods.

**Turnover rate** is the total value of sales and purchases of stocks by a fund, less any subscriptions and redemptions monies into or out of a fund, expressed as a percentage of the fund’s average value, over a specified period (usually one year).

**Equity yield characteristics** reflects distributions declared over the past twelve months as a percentage of the mid-market unit price, as at the date shown. It does not include any preliminary charge and investors may be subject to tax on their distributions.

Investment risk information
The value of investments, and the income from them, may fall or rise and investors may get back less than they invested.
Some funds invest in emerging markets which can be more volatile than more established markets. As a result the value of your investment may rise or fall.
Investments in smaller companies may be more volatile than investments in well-established blue chip companies.
The Funds may use derivatives in order to reduce risk or cost and/or generate extra income or growth. The use of derivatives could increase or reduce exposure to underlying assets and result in greater fluctuations of the Fund’s net asset value. A derivative is a financial contract whose value is based on the value of a financial asset (such as a share, bond, or currency) or a market index.
Some funds invest in securities which are denominated in different currencies. Movements in currency exchange rates can affect the return of investments.
For further information on risks, please see the ‘Risk Factors’ section of the prospectus on our website at https://global.vanguard.com.

Important information
This document is for professional investors only (as defined under the MiFID II Directive) investing for their own account (including management companies (fund of funds) and professional clients investing on behalf of their discretionary clients). Not to be distributed to the public.
For further information on the fund’s investment policies and risks, please refer to the prospectus of the UCITS and to the KIID before making any final investment decisions. The KIID for this fund is available in local languages, alongside the prospectus via Vanguard’s website https://global.vanguard.com/.

The information contained in this document is not to be regarded as an offer to buy or sell or the solicitation of any offer to buy or sell securities in any jurisdiction where such an offer or solicitation is against the law, or to anyone to whom it is unlawful to make such an offer or solicitation, or if the person making the offer or solicitation is not qualified to do so. The information in this document is general in nature and does not constitute legal, tax, or investment advice. Potential investors are urged to consult their professional advisers on the implications of making an investment in, holding or disposing of shares of, and the receipt of distribution from any investment.

Vanguard Investment Series plc has been authorised by the Central Bank of Ireland as a UCITS and has been registered for public distribution in certain EEA countries and the UK. Prospective investors are referred to the Funds’ prospectus for further information. Prospective investors are also urged to consult their own professional advisers on the implications of making an investment in, and holding or disposing shares of the Funds and the receipt of distributions with respect to such shares under the law of the countries in which they are liable to taxation.

The Manager of Vanguard Investment Series plc is Vanguard Group (Ireland) Limited. Vanguard Asset Management, Limited is a distributor of Vanguard Investment Series plc.

The Manager of the Ireland-domiciled funds may determine to terminate any arrangements made for marketing the shares in one or more jurisdictions in accordance with the UCITS Directive, as may be amended from time to time.

For investors in Ireland-domiciled funds, a summary of investor rights can be obtained via https://global.vanguard.com/portal/site/portal/ucits-investing-with-us and is available in English, German, French, Spanish, Dutch and Italian.

The funds or securities referred to herein are not sponsored, endorsed, or promoted by MSCI, and MSCI bears no liability with respect to any such funds or securities. The prospectus or the Statement of Additional Information contains a more detailed description of the limited relationship MSCI has with Vanguard and any related funds.
