Distribution in the UK

The Company is domiciled in Ireland and is authorised by the Central Bank of Ireland. The Company and the sub-funds of the Company listed in Schedule 1 (each a "**Fund**" and together the "**Funds**") are recognised in the UK under the Overseas Fund Regime but are not UK-authorised funds. The "Overseas Fund Regime" is the FCA's gateway which allows certain investment funds established outside the UK to be promoted in the UK, including to retail investors in the UK. The Company's PRN is 1059349.

UK investors should be aware that if they invest in a Fund, they may not be able to refer a complaint against the Manager or the Depositary to the UK's Financial Ombudsman Service. A UK investor will be able to make a complaint to the Company and its Manager but may not have a right to access any independent redress mechanisms in Ireland.

Initial Offer Period

Details of the initial offer period and initial offer price for the Funds are set out in the "Fund Details" section in Appendix 1 of the Prospectus or the relevant Supplement where applicable. Any subscription monies received during the initial offer period will be invested.

Pricing

Investors can obtain information about the most recent prices from the office of the UK Facilities, Marketing and Sales Agent detailed above. Updated prices are also available for UK retail investors, UK advisers and UK institutional investors at https://www.vanguard.co.uk/uk-fund-directory.

Each Fund is single-priced which means that there must be only a single Net Asset Value for any Share as determined from time to time by reference to a particular Valuation Point. Each Fund is priced with "forward pricing" which means that the price is calculated at the next Valuation Point after the subscription or redemption is deemed to be accepted.

As the estimated costs of buying and selling the underlying investments of a Fund can vary with market conditions, the amount of the anti-dilution levy can vary over time and may vary from Fund to Fund. Based on historical data, the Manager does not anticipate that the anti-dilution levy will exceed 3% of the Net Asset Value of any Fund, however, the Manager reserves the right to adjust this figure at any time in the event of exceptional market conditions or in any case where it is of the opinion that the interests of Shareholders require the imposition of a higher anti-dilution levy.

Investors should refer to the 'Anti-Dilution Levy' section of the Prospectus for additional information on the anti-dilution levy and its use to mitigate the effect of dilution. It is not possible to predict accurately whether dilution will occur at any point in time. Based on historical data, the application of the anti-dilution levy to the Funds is rare.

Equalisation

In respect of the Distributing Share classes, the Company intends to operate equalisation arrangements and make equalisation payments in respect of each such Share to reflect the pro rata payment of dividends based on the period of time the Share has been owned by an investor. If an investor acquires Shares at a date when the Fund has accrued income which has not yet been declared as a dividend, the Directors may credit to the equalisation account part of the subscription price representing the accrued income which would be attributable to those Shares, as the case may be. When the dividend is paid, the investor will receive the same amount of cash as the existing investors, but the amount in respect of income accrued before he acquired his Shares will be paid not as a dividend but out of the equalisation account, as capital, comprising the repayment of part of the subscription price.

Assessment of Performance

Investors should refer to the “Benchmark Index” section for each Fund in Appendix 1 of the Prospectus or the relevant Supplement where applicable which identifies the name of the Index (if relevant) used by the relevant Fund and whether it is used as part of the management of the Fund or for performance comparison purposes only. Investors may refer to the performance of the relevant Index (where applicable) to assess the performance of the Fund.

Investors should note that the capital invested is at risk. Investors making investments in a Fund may not receive back their entire investment. There is no guarantee that a positive return will be achieved over the investment period over which a Fund aims to achieve its objective or any period.

Certain Funds are actively managed and may not be managed with reference to a benchmark. Each actively managed Fund aims to achieve its investment objective as set out in Appendix 1 of the Prospectus or the relevant Supplement where applicable.

Investors should measure the performance of the following actively managed Funds against the Index used by the relevant Fund for performance comparison purposes (if relevant) and/or on a rolling basis over the recommended holding period over which the Fund aims to achieve its investment objective:
