Key Information Document

Purpose

This document provides you with key information about this investment Fund. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this Fund and to help you compare it with other funds.

Product

Product: Vanguard Active USD High Yield Corporate Bond UCITS ETF (the "Fund") - (USD) Distributing Shares

IE0001Z91FY3

Vanguard Group (Ireland) Limited ("VGIL")

Call +44 207 489 4305 for more information - https://global.vanguard.com - This Key Information Document is dated 19/11/2026.

The Central Bank of Ireland (the "Central Bank") is responsible for supervising VGIL in relation to this Key Information Document.

The Fund is authorised in Ireland and has been registered for sale in other EEA Member States.

VGIL is authorised in EEA Member States and regulated by the Central Bank.

You are about to purchase a Fund that is not simple and may be difficult to understand.

What is this product?

Type: The Fund is a sub-fund of Vanguard Funds plc ("VF"), a UCITS authorised by the Central Bank of Ireland.

Term: The Fund has no fixed maturity date, however it may be terminated in certain circumstances as described in the prospectus of VF (the "Prospectus") including if the net asset value of the Fund falls below US$100 million or its equivalent in another currency.

Objectives: The Fund aims to provide a higher total return (capital growth plus income) than the Bloomberg US High Yield 2% Issuer Cap Index after the fees and expenses of the Fund.

The Fund employs an "active management" strategy in aiming to outperform the Index and in doing so, the Investment Manager will follow distinct approaches in managing the Fund's assets.

The Fund will invest in bonds, including fixed and floating rate issues. Under normal market conditions, the Fund will invest at least 80% of its assets in USD-denominated, corporate debt from issuers with a credit rating of the equivalent of Ba1 and below ("high yield" or "non-investment grade") by Moody's or another independent rating agency or, which are determined to be of comparable quality by the Investment Manager. Issuers of these securities may be located in any country.

The Investment Manager implements a strategic and disciplined framework for analysing fixed income securities. Decisions on how to allocate the Fund's assets are dependent on the Investment Manager's outlook on such securities. The Investment Manager will select issuers based on its proprietary analysis; focusing on an outlook including factors such as the global market environment, relevant business and financial information, the attractiveness of the valuations available in the securities, with criteria which may include yield spread comparisons on a historical basis as well as a cross-sectional basis with comparable sectors.

The Fund may invest in securities which are denominated in currencies other than the base currency. Movements in currency exchange rates can affect the return of investments.

The Fund may invest up to 10% in syndicated loans. The Fund may also invest in securities, known as Rule 144A securities of the US Securities Act 1933, that do not meet the Fund's standard eligibility criteria and may be less liquid.

The Fund may use derivatives in order to reduce risk or cost and/or generate extra income or growth. A derivative is a financial contract whose value is based on the value of a financial asset (such as a share, bond, or currency) or a market index.

ETF Shares in the Fund can be bought or sold on a daily basis (save on certain bank holidays or public holidays and subject to certain restrictions described in the Prospectus). ETF Shares are listed on one or more stock exchange(s). Subject to certain exceptions set out in the Prospectus, investors who are not Authorised Participants may only buy or sell ETF Shares through a company that is a member of a relevant stock exchange at any time when that stock exchange is open for business. A list of the days on which shares in the Fund cannot be bought or sold is available on:

https://fund-docs.vanguard.com/holiday-calendar-vanguard-funds-plc-ETFs.pdf

Income from the ETF Shares will be paid out.

VF is an umbrella Fund with segregated liability between sub-funds. This means that the holdings of the Fund are maintained separately under Irish law from holdings of other sub-funds of VF and your investment in the Fund will not be affected by any claims against any other sub-fund of VF.

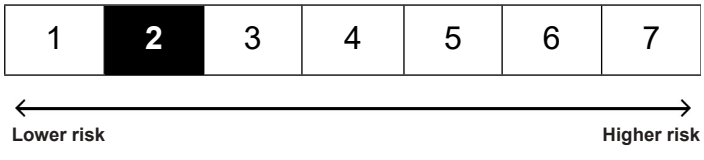

Intended retail investor: The Fund is available to a wide range of investors seeking access to a portfolio managed in accordance with a specific investment objective and policy.

The VF depositary is Brown Brothers Harriman Trustee Services (Ireland) Limited.

You can obtain copies of the Prospectus and the latest annual and semi-annual report and accounts for Vanguard Funds plc ("VF") along with the latest published prices of shares and other practical information, from VF c/o Brown Brothers Harriman Fund Administration Services (Ireland) Limited, 30 Herbert Street, Dublin 2, D02 W329, Ireland or from our website at https://global.vanguard.com. Information on the Fund's portfolio disclosure policy and publication of the iNAV can be obtained at https://global.vanguard.com/portal/site/portal/ucits-documentation. The documents are available in English and are free of charge.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the Fund for 3 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this Fund compared to other Funds. It shows how likely it is that the Fund will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Fund as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the Fund's capacity to pay you.

Be aware of currency risk. You may receive payments in a different currency to the base currency of the Fund, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Beside the market risks included in the risk indicator, other risks may affect the Fund, including counterparty, index tracking and high yield bonds risk.

For further information on risks please see the "Risk Factors" section of the Prospectus on our website at https://global.vanguard.com

This Fund does not include any protection from future market performance so you could lose some or all of your investment.

The value of bonds and fixed income-related securities is affected by influential factors such as interest rates, inflation, credit spreads and volatility which, in turn, are driven by other factors including political events, economic news, company earnings and significant corporate events.

Performance Scenarios

What you will get from this Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.
The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: 3 years

Example Investment: USD 10,000

Scenarios		If you exit after 1 year	If you exit after 3 years
Minimum	**There is no minimum guaranteed return if you exit before 3 years. You could lose some or all of your investment.**	-	-
Stress	**What you might get back after costs**	USD 7,620	USD 7,810
	Average return each year	-23.80%	-7.91%
Unfavourable	**What you might get back after costs**	USD 8,570	USD 9,810
	Average return each year	-14.30%	-0.64%
Moderate	**What you might get back after costs**	USD 10,680	USD 11,500
	Average return each year	6.80%	4.77%
Favourable	**What you might get back after costs**	USD 12,350	USD 13,640
	Average return each year	23.50%	10.90%

The figures shown include all the costs of the Fund itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

This Fund cannot be easily cashed in.

Unfavourable scenario: This type of scenario occurred for an investment using a suitable benchmark between 2019 and 2022.

Moderate scenario: This type of scenario occurred for an investment using a suitable benchmark between 2022 and 2025.

Favourable scenario: This type of scenario occurred for an investment using a suitable benchmark between 2022 and 2025.

What happens if VGIL is unable to pay out?

The assets of the Fund are held in safekeeping by its depositary. In the event of the insolvency of VGIL, the Fund's assets in the safekeeping of the depositary will not be affected. However, in the event of the depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. This risk is mitigated to a certain extent by the fact the depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The depositary will also be liable to the Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure to properly fulfil its obligations (subject to certain limitations).

There is no compensation or guarantee scheme protecting you from a default of the Fund's depositary.

What are the costs?

The person advising on or selling you the Fund may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you invest in the Fund and how well the Fund does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the Fund performs as shown in the moderate scenario

- USD 10,000 is invested.

	If you exit after 1 year	If you exit after 3 years
Total costs	USD 15	USD 50
Annual cost impact (*)	0.2%	0.2% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.0 % before costs and 4.8 % after costs.

We may share part of the costs with the person selling you the Fund to cover the services they provide to you. They will inform you of the amount.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	The Fund does not charge an entry fee.	USD 0
Exit costs	The Fund does not charge an exit fee, but the person selling you the Fund may do so.	USD 0

Ongoing costs taken each year

Management fees and other administrative or operating costs*	0.15% of the value of your investment p.a. This is an estimate based on actual costs over the last year and takes account of any known future changes.	USD 15
Transaction costs	0.00% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the Fund. The actual amount will vary depending on how much we buy and sell.	USD 0

Incidental costs taken under specific conditions

Performance fees	There is no performance fee for this Fund.	USD 0

* The OCF is subject to a partial fee waiver by the Manager for a period of one calendar year from the date of launch of the Sub-Fund, unless otherwise notified in advance to Shareholders. Accordingly, the OCF shall be 0.15% per annum of the NAV until such date. Thereafter, the OCF will revert to 0.25% per annum of the NAV.

How long should I hold it and can I take money out early?

Recommended holding period: 3 years

The Fund is appropriate for long-term investment. You should have an investment horizon of at least 3 years.

Please see the section of the Prospectus entitled “Redeeming Shares” for certain fees payable in respect of redemptions.

How can I complain?

If you are an investor in our VF range of Exchange Traded Funds (ETFs), it may be appropriate for you to liaise directly with the bank, broker, trading platform or financial adviser through which you purchased your shares, particularly if your complaint is service related. Please be aware that we will usually provide responses in English. If for any reason you are experiencing problems submitting your complaint with us, then please contact, Vanguard, 4th Floor, The Walbrook Building, 25 Walbrook, London, EC4N 8AF or European_client_services@vanguard.co.uk. Please also be aware that there may be collective redress mechanisms or separate ombudsman arrangements available in your country. https://global.vanguard.com/
