### Vanguard EUR Cash UCITS ETF (the "Fund")

A sub-fund of Vanguard Funds PLC

(EUR) Distributing

ISIN: IE000AFVKJZ0

Manager: Vanguard Group (Ireland) Limited ("VGIL")

## Objectives and investment policy

- The Fund aims to preserve capital, maintain a high level of liquidity within the Fund's portfolio of assets and provide a return in line with Euro money market rates. Money invested in the Fund is not protected or guaranteed.
- The Fund is a Short-Term Variable NAV Money Market Fund in accordance with the EU Money Market Fund Regulation and will comply with the investment and diversification restrictions set out in the Fund Supplement.
- The Fund employs an "active management" strategy in seeking to achieve its objective by investing in securities that are eligible assets according to Article 9 of the EU MMFR. The Fund seeks to primarily invest in high-quality EUR denominated Treasury Bills (short-term securities issued by Governments), Agency and Supranational issued commercial paper (unsecured short-term debt instruments issued by corporations or other entities including public or local authorities), Time Deposits (fixed term investment that gathers interest over the period of its term) and reverse repurchase agreements (instruments under which the Fund acquires ownership of securities from a seller who agrees to repurchase the securities at a mutually agreed date and at an agreed repurchase price).
- The Fund may measure its performance against the compounded Euro Short-Term Rate (€STR), the rate published by the European Central Bank, which reflects the wholesale euro unsecured overnight borrowing costs of banks located in the Euro area. The Investment Manager has discretion to select the Fund's investments and is not restricted to selecting investments from any benchmark.
- The securities held by the Fund may be issued or guaranteed by Governments, Government Agencies or Local Authorities (including those that do not participate in the Economic and Monetary Union (EMU)), Supranational bodies or corporate issuers.
- The weighted average maturity of the Fund's portfolio will not exceed 60 days, and the weighted average life of the Fund's portfolio will not exceed 120 days. At least 7.5% of the Fund's portfolio will be daily maturing assets, reverse repurchase agreements or cash which may be terminated or withdrawn by giving prior notice of one working day. At least 15% of the Fund's portfolio will be comprised of weekly maturing assets, reverse

repurchase agreements or cash which may be terminated or withdrawn by giving prior notice of five working days and money market instruments or units or shares in other money market funds provided they can be redeemed and settled within five working days (provided such money market instrument or units or shares will only constitute a maximum of 7.5% of the weekly maturing assets).

- The Fund will only invest in EUR denominated securities (which may include securities from issuers inside and outside the EMU) that are high credit quality pursuant to the Manager's internal credit quality assessment procedure and with a maturity at issuance or residual term to maturity of 397 days or less.
- The Fund is appropriate for short-term investment (less than 1 year).
- The Fund is not recommended for investors seeking an increase in the value of investments over the long-term.
- The base currency of the Fund is EUR.
- Income from the ETF Shares will be paid out.
- Portfolio transaction costs will have an impact on performance.
- ETF Shares in the Fund can be bought or sold on a daily basis (save on certain bank / public holidays and subject to certain restrictions described in Appendix 1 of the Prospectus or in a separate Supplement). ETF Shares are listed on one or more stock exchange(s). Subject to certain exceptions set out in the Prospectus, investors who are not Authorised Participants may only buy or sell ETF Shares through a company that is a member of a relevant stock exchange at any time when that stock exchange is open for business. A list of the days on which shares in the Fund cannot be bought or sold is available on <https://fund-docs.vanguard.com/holiday-calendar-vanguard-funds-plc-ETFs.pdf>

## Risk and reward profile

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean "risk free".
- The Fund is rated 1 due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.
  - The value of bonds and fixed income-related securities is affected by influential factors such as interest rates, inflation, credit spreads and volatility which, in turn, are driven by other factors including political, economic news, company earnings and significant corporate events.

The risk and reward indicator does not take account of the following risks of investing in the Fund:

- Counterparty risk. The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to other instruments, may expose the Fund to financial loss.
- Credit risk. The issuer of a financial asset held within the Fund may not pay income or repay capital to the Fund when due.
- Negative Yield Environment risk. In the event of a low interest rate, deflationary or other such environment, certain money market instruments in which the Fund invests may trade at a negative yield.
- An investment in a money market fund is not a guaranteed investment. An investment in a money market fund is different from an investment in deposits, as the amount invested in a money market fund is capable of fluctuation. Money market funds do not rely on external support for guaranteeing the liquidity of the money market fund or stabilising the Net Asset Value per share. The risk of loss of the amount invested shall be borne by the investor.

For further information on risks please see the "Risk Factors" section of the Prospectus on our website at <https://global.vanguard.com>
