VGIL is authorised in EEA Member States and regulated by the Central Bank.

You are about to purchase a Fund that is not simple and may be difficult to understand.

What is this product?

Type: The Fund is a sub-fund of Vanguard Investment Series plc ("VIS"), a UCITS authorised by the Central Bank of Ireland.

Term: The Fund has no fixed maturity date, however it may be terminated in certain circumstances as described in the prospectus of VIS (the "Prospectus") including if the net asset value of the Fund falls below US$100 million or its equivalent in another currency.

Objectives: The Fund aims to provide a higher total return (capital growth plus income) than the Bloomberg Multiverse Index (the "Index") after the fees and expenses of the Fund.

The Fund employs an "active management" strategy in aiming to outperform the Index and in doing so, the Investment Manager will follow distinct approaches in managing the Fund's assets.

The Fund will invest in global fixed income bonds, including fixed and floating rate issues, primarily made up of treasury, government-related, securitised and corporate debt from developed and emerging market issuers. The Fund will primarily invest in investment grade bonds with a rating of the equivalent of Baa3 and above by Moody's or another independent rating agency or, are determined to be of comparable quality by the Investment Manager but may invest up to 25% of its assets in non-investment grade bonds with a rating of the equivalent of Ba1 or below by Moody's or another independent rating agency.

The Investment Manager may in its discretion restrict the extent to which the Fund's holdings deviate from the Index constituents on a security selection and fixed income sector basis. The Fund may take active fixed income sector views with the focus on bond specific selection. The extent to which the Fund can outperform the Index may be restricted by constraints applied by the Investment Manager which limit the potential volatility of the difference between the return of the Fund and the return of the Index. Such constraints may change or be removed from time to time at the Investment Manager's discretion and depending on market environments.

The Fund invests in securities which are denominated in currencies other than the base currency. Movements in currency exchange rates can affect the return of investments. Currency hedging techniques are used to minimise the risks associated with movements in currency exchange rates, where the Fund invests in securities denominated in currencies other than the listing currency, but these risks cannot be eliminated entirely. As this document relates to a share class where such techniques are used, the performance (see "Performance") of this share class is shown against the currency hedged version of the Index.

The Fund may use derivatives in order to reduce risk or cost and/or generate extra income or growth, and for investment purposes. A derivative is a financial contract whose value is based on the value of a financial asset (such as a share, bond, or currency) or a market index.

Subject to certain exceptions set out in the Prospectus, Shares in the Fund can be bought or sold or exchanged on a daily basis (save on certain bank / public holidays and subject to certain restrictions described in Appendix 1 of the Prospectus or in a separate Supplement) by submitting an application in writing. A list of the days on which shares in the Fund cannot be bought or sold is available on

Income from the Fund will be paid out.

VIS is an umbrella fund with segregated liability between sub-funds. This means that the holdings of the Fund are maintained separately under Irish law from holdings of other sub-funds of VIS and your investment in the Fund will not be affected by any claims against any other sub-fund of VIS.

Intended retail investor: The Fund is available to a wide range of investors seeking access to a portfolio managed in accordance with a specific investment objective and policy.

The VIS depositary is Brown Brothers Harriman Trustee Services (Ireland) Limited.

You can obtain copies of the Prospectus and the latest annual and semi-annual report and accounts for Vanguard Investment Series plc ("VIS"), along with the latest published prices of shares and other practical information on the Fund from Vanguard Investment Series plc c/o Brown Brothers Harriman Fund Administration Services (Ireland) Limited, 30 Herbert Street, Dublin 2, D02 W329, Ireland or from our website at https://global.vanguard.com These documents are available in English only. What are the risks and what could I get in return?

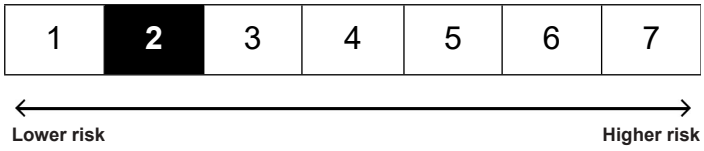
Risk Indicator



The risk indicator assumes you keep the Fund for 3 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this Fund compared to other Funds. It shows how likely it is that the Fund will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Fund as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the Fund's capacity to pay you.

Be aware of currency risk. You may receive payments in a different currency to the base currency of the Fund, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Beside the market risks included in the risk indicator, other risks may affect the Fund, including counterparty and investment risks.

For further information on risks please see the “Risk Factors” section of the Prospectus on our website at https://global.vanguard.com

This Fund does not include any protection from future market performance so you could lose some or all of your investment.

The value of bonds and fixed income-related securities is affected by influential factors such as interest rates, inflation, credit spreads and volatility which, in turn, are driven by other factors including political events, economic news, company earnings and significant corporate events.

Performance Scenarios

What you will get from this Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.
The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: 3 years
Example Investment: GBP 10,000

Scenarios		If you exit after 1 year	If you exit after 3 years
Minimum	**There is no minimum guaranteed return if you exit before 3 years. You could lose some or all of your investment.**	-	-
Stress	**What you might get back after costs**	GBP 8,490	GBP 8,440
	Average return each year	-15.10%	-5.50%
Unfavourable	**What you might get back after costs**	GBP 8,700	GBP 8,750
	Average return each year	-13.00%	-4.35%
Moderate	**What you might get back after costs**	GBP 10,270	GBP 10,860
	Average return each year	2.70%	2.79%
Favourable	**What you might get back after costs**	GBP 11,040	GBP 11,760
	Average return each year	10.40%	5.55%

The figures shown include all the costs of the Fund itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

This Fund cannot be easily cashed in.

Unfavourable scenario: This type of scenario occurred for an investment using the benchmark as stated in the prospectus between 2020 and 2023.

Moderate scenario: This type of scenario occurred for an investment using the benchmark as stated in the prospectus between 2016 and 2019.

Favourable scenario: This type of scenario occurred for an investment using the benchmark as stated in the prospectus between 2022 and 2025.

What happens if VGIL is unable to pay out?

The assets of the Fund are held in safekeeping by its depositary. In the event of the insolvency of VGIL, the Fund's assets in the safekeeping of the depositary will not be affected. However, in the event of the depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. This risk is mitigated to a certain extent by the fact the depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The depositary will also be liable to the Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure to properly fulfil its obligations (subject to certain limitations).

There is no compensation or guarantee scheme protecting you from a default of the Fund's depositary.

What are the costs?

The person advising on or selling you the Fund may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you invest in the Fund and how well the Fund does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the Fund performs as shown in the moderate scenario

- GBP 10,000 per year is invested.

	If you exit after 1 year	If you exit after 3 years
Total costs	GBP 36	GBP 115
Annual cost impact (*)	0.4%	0.4% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.2 % before costs and 2.8 % after costs.

We may share part of the costs with the person selling you the Fund to cover the services they provide to you. They will inform you of the amount.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	The Fund does not charge an entry fee.	GBP 0
Exit costs	The Fund does not charge an exit fee, but the person selling you the Fund may do so.	GBP 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.30% of the value of your investment p.a. This is an estimate based on actual costs over the last year and takes account of any known future changes.	GBP 30
Transaction costs	0.06% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the Fund. The actual amount will vary depending on how much we buy and sell.	GBP 6
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this Fund.	GBP 0

How long should I hold it and can I take money out early?

Recommended holding period: 3 years

The Fund is appropriate for long-term investment. You should have an investment horizon of at least 3 years.

No redemption fees are imposed in respect of redemptions, however, the Fund may use swing pricing in order to mitigate the effects of dilution on a particular Dealing Day.

How can I complain?
