

## Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

### Vanguard U.S. Treasury 1-3 Year Bond UCITS ETF (the "Fund")

A sub-fund of Vanguard Funds PLC

(USD) Accumulating

ISIN: IE000H3Q3AF6

Manager: Vanguard Group (Ireland) Limited ("VGIL")

## Objectives and investment policy

- The Fund employs a passive management – or indexing – investment approach, through physical acquisition of securities, and seeks to track the performance of the Bloomberg US Treasury 1-3 Year Index (the "Index").
- The Fund invests in a portfolio of fixed-rate, 1-3 Year US Dollar-denominated US Treasury securities that so far as possible and practicable consists of a representative sample of the component securities of the Index.
- The Index is designed to reflect the universe of US Dollar-denominated, fixed rate, nominal debt issued by the US Treasury with maturities of between one and up to, but not including, three years and which have a par amount (i.e. the amount of money that issuers agree to repay to the purchaser at the bond's maturity) outstanding greater than or equal to USD300 million.
- To a lesser extent the Fund may invest in similar types of government bonds outside the Index.
- The Fund may use derivatives in order to reduce risk or cost and/or generate extra income or growth. A derivative is a financial contract whose value is based on the value of a financial asset (such as a share, bond, or currency) or a market index.
- The base currency of the Fund is USD.
- The Fund attempts to remain fully invested and hold small amounts of cash except in extraordinary market, political or similar conditions where the Fund may temporarily depart from this investment policy to avoid losses.

- The Fund is appropriate for short-term investment.
- Income from the ETF Shares will be reinvested and reflected in the price of shares in the ETF.
- Portfolio transaction costs will have an impact on performance.
- ETF Shares in the Fund can be bought or sold on a daily basis (save on certain bank / public holidays and subject to certain restrictions described in Appendix 1 of the Prospectus or in a separate Supplement). ETF Shares are listed on one or more stock exchange(s). Subject to certain exceptions set out in the Prospectus, investors who are not Authorised Participants may only buy or sell ETF Shares through a company that is a member of a relevant stock exchange at any time when that stock exchange is open for business. A list of the days on which shares in the Fund cannot be bought or sold is available on <https://fund-docs.vanguard.com/holiday-calendar-vanguard-funds-plc-ETFs.pdf>

**For further information about the objectives and investment policy of the Fund, as well as the limited relationship with the Index provider, please see the supplement for the Fund ("Supplement") and Appendix 6 of the Vanguard Funds plc Prospectus (the "Prospectus") on our website at <https://global.vanguard.com>**

## Risk and reward profile

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean "risk free".
- The Fund is rated 2 due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.
  - The value of bonds and fixed income-related securities is affected by influential factors such as interest rates, inflation, credit spreads and volatility which, in turn, are driven by other factors including political, economic news, company earnings and significant corporate events.
  - Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political or regulatory events.
  - Use of derivatives. The use of derivatives could increase or reduce exposure to underlying assets and result in greater fluctuations of the Fund's net asset value.

**The risk and reward indicator does not take account of the following risks of investing in the Fund:**

- Counterparty risk. The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
- Liquidity risk. Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily. This could cause the Fund to incur higher costs when buying or selling investments or could mean that the Fund is not able to buy or sell investments when it would like to do so.
- Index tracking risk. The Fund is not expected to track the performance of the Index at all times with perfect accuracy. The Fund is, however, expected to provide investment results that, before expenses, generally correspond to the price and yield performance of the Index.
- Index sampling risk. The Fund uses an index sampling technique whereby a representative sample of securities are selected to represent the Index. This means there is the risk that the securities selected for the Funds may not, in the aggregate, approximate the full index.
- Credit risk. The issuer of a financial asset held within the Fund may not pay income or repay capital to the Fund when due.
- Inflation risk. The value of your investments may not be worth as much in the future due to changes in purchasing power resulting from inflation.

**For further information on risks please see the "Risk Factors" section of the Prospectus on our website at <https://global.vanguard.com>**

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge*	None
Exit charge*	None
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the Fund over a year	
Ongoing charges	0.05%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

Investors who are not Authorised Participants ("APs") may have to pay fees to a stockbroker when you buy or sell on stock exchange(s). The fees are available directly from your stockbroker and are not charged by, or payable to, the Fund.

The entry and exit charges shown are maximum figures and in some cases you might pay less. Investors can find out the actual entry and exit charges from their distributor and or adviser.

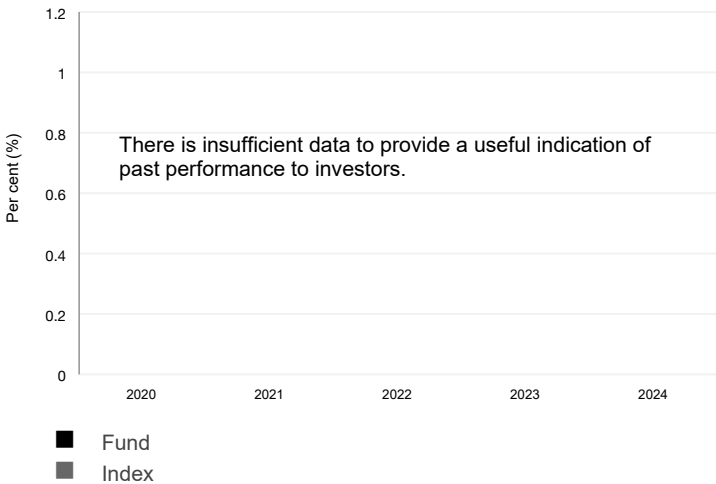

APs dealing directly with the Fund will pay related transaction costs. For cash creations or redemptions there may be a cash transaction fee of a maximum of 2% which is paid to the Fund, and all transactions will have associated transaction costs. Investors who are not APs will not pay these fees or costs.

\* In the case of a large subscription or redemption by an investor, that investor may have to pay an additional charge (e.g. anti-dilution levy) to the Fund to cover transaction costs incurred.

Ongoing charges have not been based on an ex-post calculation as the share class was launched less than one calendar year ago. Ongoing charges have accordingly been estimated based on the expected total of charges that will be taken from the assets of the Fund over the course of a year. It excludes portfolio transaction costs.

For further information about charges, please see the Supplement and the sections entitled "Buying Shares", "Redeeming Shares", and "Fees and Expenses" in the Prospectus on our website at <https://global.vanguard.com>
