

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Vanguard Global Short-Term Core Bond Fund (the "Fund")

A sub-fund of Vanguard Investment Series Plc

Institutional Plus EUR Hedged Accumulating Shares

ISIN: IE000RD7L917

Manager: Vanguard Group (Ireland) Limited ("VGIL")

Objectives and investment policy

- The Fund aims to provide a higher total return (capital growth plus income) than the Bloomberg Global Aggregate 1-5 Year Index (the "Index") after the fees and expenses of the Fund.
- The Fund employs an "active management" strategy in aiming to outperform the Index and in doing so, the Investment Manager will follow distinct approaches in managing the Fund's assets.
- The Fund will invest in global fixed income bonds, including fixed and floating rate issues, primarily made up of treasury, government-related, securitised, and corporate debt, with maturities typically of between one and up to, but not including, five years, from developed and emerging market issuers. The Fund will primarily invest in investment grade bonds with a rating of the equivalent of Baa3 and above by Moody's or another independent rating agency or, which are determined to be of comparable quality by the Investment Manager.
- The Investment Manager may in its discretion restrict the extent to which the Fund's holdings deviate from the Index constituents on a security selection and fixed income sector basis. The Fund may take active fixed income sector views with the focus on bond specific selection. The extent to which the Fund can outperform the Index may be restricted by constraints applied by the Investment Manager which limit the potential volatility of the difference between the return of the Fund and the return of the Index. Such constraints may change or be removed from time to time at the Investment Manager's discretion and depending on market environments.
- The Fund may use derivatives in order to reduce risk or cost and/or generate extra income or growth, and for investment purposes. A derivative is a financial contract whose value is based on the value of a financial asset (such as a share, bond, or currency) or a market index.
- The base currency of the Fund is USD.

- The Fund attempts to remain fully invested and hold small amounts of cash except in extraordinary market, political or similar conditions where the Fund may temporarily depart from this investment policy to avoid losses.
- The Fund invests in securities which are denominated in currencies other than the base currency. Movements in currency exchange rates can affect the return of investments. For hedged share classes: Currency hedging techniques are used to minimise the risks associated with movements in currency exchange rates, where the Fund invests in securities denominated in currencies other than the listing currency, but these risks cannot be eliminated entirely. As this document relates to a share class where such techniques are used, the performance (see "Performance") of this share class is shown against the currency hedged version of the Index.
- The Fund is appropriate for long-term investment. You should have an investment horizon of at least 3 years.
- Income from the Fund will be reinvested and reflected in the price of shares in the Fund.
- Portfolio transaction costs will have an impact on performance.
- Subject to certain exceptions set out in the Prospectus, Shares in the Fund can be bought or sold or exchanged on a daily basis (save on certain bank / public holidays and subject to certain restrictions described in Appendix 1 of the Prospectus or in a separate Supplement) by submitting an application in writing. A list of the days on which shares in the Fund cannot be bought or sold is available on <https://fund-docs.vanguard.com/holiday-calendar-vanguard-investment-series-plc-irish-funds.pdf>

For further information about the objectives and investment policy of the Fund, as well as the limited relationship with the Index provider, please see Appendix 1 and Appendix 6 of the Vanguard Investment Series plc prospectus (the "Prospectus") on our website at <https://global.vanguard.com>

Risk and reward profile

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean "risk free".
- The Fund is rated 2 due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.
 - The value of bonds and fixed income-related securities is affected by influential factors such as interest rates, inflation, credit spreads and volatility which, in turn, are driven by other factors including political, economic news, company earnings and significant corporate events.
 - Emerging markets are generally more sensitive to economic and political conditions than developed markets. Other factors include greater 'Liquidity Risk', restrictions on investment or transfers of assets and failed/delayed delivery of securities or payments to the Fund.
 - Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political or regulatory events.
 - Use of derivatives. The use of derivatives could increase or reduce exposure to underlying assets and result in greater fluctuations of the Fund's net asset value.

The risk and reward indicator does not take account of the following risks of investing in the Fund:

- Counterparty risk. The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
- Liquidity risk. Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily. This could cause the Fund to incur higher costs when buying or selling investments or could mean that the Fund is not able to buy or sell investments when it would like to do so.
- Currency risk. Movements in currency exchange rates can adversely affect the return of your investment. Currency hedging is not guaranteed to completely eliminate currency risk.
- Call risk. During periods of falling interest rates, issuers of callable bonds may call (repay) securities with higher coupons or interest rates before their maturity dates.
- Short duration bond risk. A Fund which invests in short duration bonds may be subject to liquidity constraints and periods of lower liquidity in stressed market conditions. As a result, it may be more difficult for a Fund to buy or sell such underlying bonds and therefore could lead to increased transactional costs.
- Credit risk. The chance that a bond issuer will fail to pay interest and principal in a timely manner, or that negative perceptions of the issuer's ability to make such payments will cause the price of that bond to decline.

For further information on risks please see the "Risk Factors" section of the Prospectus on our website at <https://global.vanguard.com>

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the Fund over a year	
Ongoing charges	0.15%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures and in some cases you might pay less. Investors can find out the actual entry and exit charges from their distributor and or adviser.

Because the share class was launched less than one calendar year ago, ongoing charges are estimated based on the expected total of charges. It excludes portfolio transaction costs.

For further information about charges, please see the sections entitled "Buying Shares", "Redeeming Shares", "Fees and Expenses", Appendix 1, and the "Swing Pricing" section in Appendix 2 of the Prospectus on our website at <https://global.vanguard.com>
