

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Vanguard FTSE Developed World ex UK Common Contractual Fund (the "Fund")

A sub-fund of Vanguard Investments Common Contractual Fund

Institutional B GBP Accumulation Units - UK Life Ins. Co.

ISIN: IE00BYMSV959

Manager: Vanguard Group (Ireland) Limited ("VGIL")

Objectives and investment policy

- The Fund employs a passive management – or indexing – investment approach and seeks to track the performance of the FTSE Developed ex UK Index (the "Index").
- The Index is comprised of large and mid-sized company stocks in global developed markets, excluding the UK.
- The Fund attempts to:
 - Replicate the Index by investing through physical acquisition in all, or substantially all, of the component securities of the Index, holding each in approximately the same proportion as the weighting of the Index. Where not practicable to fully replicate, the Fund will use the sampling process.
 - Remain fully invested and hold small amounts of cash except in extraordinary market, political or similar conditions where the Fund may temporarily depart from this investment policy to avoid losses.
- The Fund may use derivatives in order to reduce risk or cost and/or generate extra income or growth. A derivative is a financial contract whose value is based on the value of a financial asset (such as a share, bond, or currency) or a market index.
- The base currency of the Fund is GBP.

- The Fund invests in securities which are denominated in currencies other than the base currency. Movements in currency exchange rates can affect the return of investments.
- The Fund is appropriate for long-term investment. You should have an investment horizon of at least 5 years.
- Income from the Fund will be reinvested and reflected in the price of units in the Fund.
- Portfolio transaction costs will have an impact on performance.
- Units in the Fund can be bought or sold on a daily basis (save on certain bank holidays or public holidays and subject to certain restrictions described in the Supplement). A list of the days on which units in the Fund cannot be bought or sold is available on <https://fund-docs.vanguard.com/holiday-calendar-vanguard-investments-common-contractual-fund.pdf>

For further information about the objectives and investment policy of the Fund, as well as the limited relationship with the Index provider, please see Appendix 1 of the Vanguard Investments Common Contractual Fund prospectus (the "Prospectus") on our website at <https://global.vanguard.com>

Risk and reward profile

- This indicator is based on simulated historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk category shown is not guaranteed and may shift over time.
- The lowest category does not mean "risk free".
- The Fund is rated 5 due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.
 - The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political events, economic news, company earnings and significant corporate events.
 - Movements in currency exchange rates can adversely affect the return of your investment.
 - Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political or regulatory events.

- Use of derivatives. The use of derivatives could increase or reduce exposure to underlying assets and result in greater fluctuations of the Fund's net asset value.

The risk and reward indicator does not take account of the following risks of investing in the Fund:

- Counterparty Risk. The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments may expose the Fund to financial loss.
- Liquidity risk. Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily. This could cause the Fund to incur higher costs when buying or selling investments or could mean that the Fund is not able to buy or sell investments when it would like to do so.
- Index tracking risk. The Fund is not expected to track the performance of the Index at all times with perfect accuracy. The Fund is, however, expected to provide investment results that, before expenses, generally correspond to the price and yield performance of the Index.
- Index sampling risk. As the Fund may use an index sampling technique whereby a representative sample of securities are selected to represent the Index, there is the risk that the securities selected for the Fund may not, in the aggregate, approximate the full index.

For further information on risks please see the "Risk Factors" section of the Prospectus on our website at <https://global.vanguard.com>

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the Fund over a year	
Ongoing charges	0.20%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures and in some cases you might pay less. Investors can find out the actual entry and exit charges from their distributor and or adviser.

The ongoing charges figure is based on expenses for the year ended 31 December 2024. This figure may vary from year to year. It excludes portfolio transaction costs.

For further information about charges please see the sections of the Prospectus entitled "Buying Units", "Redeeming Units", "Fees and Expenses", "Swing Pricing" and Appendix 1 of the Prospectus, a copy of which is available on request. See Practical Information for details.
